DVD Outline
Demo Reel

Introductory Animation (30 seconds)

30 Second Animation created in Motion in T354. I am going to tweak some of the graphics to try to make a somewhat consistent look throughout the DVD menus. I am also going to create a button that will allow the user to skip the intro, and go straight into the menu. Although there will be consistency, there will also be individualized visual elements that identify with the particular project.

Main Menu

The main menu will be a motion menu with scrolling video clips (just like the introductory animation) that act as teasers into the individual projects. The project that will be featured through buttons are:

American Zombie

Overdub

Passing Go: The Adventure of Ted Leafwater

16mm Film (sections for both Black & White and Color)

Non-Profit Video (will be completed Spring '06)

American Zombie

This will be a simple menu with a "Play" button and a "Main Menu" button. The 20 minute video will play with Chapter markers. There will be no other bells and whistles with this section.

This menu will allow for navigation back to the main menu. The end jump of the video will be the American Zombie menu.

Overdub

This menu will have 3 buttons on it, "Play," "Slideshow," and "Main Menu"

The play button will play the 26 minute video, with Chapter markers. The slideshow button will play a slideshow of production photographs from the making of Overdub.

This menu will allow for navigation back to the main menu. The end jump of the video will be the Overdub menu.

Passing Go: The Adventure of Ted Leafwater

This will be a simple menu with a "Play" button and a "Main Menu" button. The 11 minute video will play with Chapter markers. There will be no other bells and whistles with this section.

This menu will allow for navigation back to the main menu. The end jump of the video will be the Passing Go menu.

16mm Film

This menu screen will allow the user to choose Black & White or Color films, or go back to the main menu.

The Black & White and Color Menus will allow selection of the individual films, or to go back to the main 16mm film page. One other note, is that one of my films, "Couch Hunter" will contain the required alternate video angle which will be the director's extended cut vs. the short version for my C560 class.

Non-Profit Video

This menu will say “Coming Soon” and have a main menu button. This will be the link for the video I will be making in Ron Osgood’s non-profit video class, and will have a main menu button as well.

Non-Profit Video
